PROFESSIONAL SUMMARY

Technology professional and continuous learner with experience across Python, SQL, data tools, web technologies, and AI/ML concepts. Strong in analytical problem-solving, research, teamwork, communication, and organizing technical work. Interested in applying these skills to practical data analytics and technology projects.

TECHNICAL SKILLS

Programming Languages - Python, SQL, C++, JavaScript, HTML, CSS

Data Analytics - Pandas, NumPy, Excel, Power BI

Database - MySQL, MongoDB

Web Development - Django, Node.js, Express

AI/ML - Artificial Intelligence, Machine Learning, Deep Learning

Core & Tools - Data Structures, OOP, Database Management, Operating Systems, Linux, GitHub, Cloud Computing, Cybersecurity

EXPERIENCE

LLM Intern – Ethara.AI, Gurugram | Feb 2026 – May 2026

- Assisted the team in organizing project materials and resources for ongoing work.
- Conducted research to support projects and client needs.
- Collaborated with colleagues to streamline communication and coordination.

Web Developer Intern – Orphic Solutions | Aug 2025 – Oct 2025

- Assisted the team in organizing project materials and resources.
- Conducted research to support projects and client needs.
- Supported onboarding of new interns through orientation activities.

PROJECTS

Language Translator / Python, NLP

• Worked on a language translation model using Natural Language Processing concepts and explored neural machine translation with potential deployment through an API, web app, or chatbot.

Smart Football Segmentation / ML, DL

• Built a football player segmentation model using machine learning and deep learning approaches; explored image-processing techniques including color thresholding and background subtraction.

Energy Efficient Node Localization in Wireless Sensor Networks / Deep Learning

• Designed a deep-learning-based node localization approach for wireless sensor networks, focused on real-time agricultural monitoring and environmental conditions.

EDUCATION

Bachelor of Technology: Computer Science – AI/ML / Dr. A. P. J. Abdul Kalam Technical University, Uttar Pradesh | Aug 2026

Higher Secondary School: CBSE – St. Joseph's English School

Secondary School: CBSE – SD Huru Huru Public School

ACHIEVEMENTS & ACTIVITIES

- *Volunteered in organizing a tech fest.*
- *Built a football player segmentation model using ML & DL.*
- *Attended webinars/workshops on AI, Cybersecurity and Cloud.*
- *Top performer in college coding fests.*
- *Active member participating in tech meetups, coding competitions and hackathons.*
